

# Additional Workstations

*Be Prepared for Increased Order Volumes*

*When your busy season hits, you've hired new resources or you need to be ready for increased order volume, add additional workstations to your M.O.M. license to handle whatever comes your way.*

## The Challenge - Meeting Order Volume

*You've got more orders than you can fill on time or order volume is expected to go up due to seasonal demand.*

## The Solution – Introducing Additional Workstations

*Now you can get additional workstations for M.O.M. to help you meet customer demand, process orders efficiently and remove bottlenecks.*

- Orders can be processed one at a time or in batches
- Packers' workstation gives more access to each order
- Printing pick list/ ticket, packing slips, gift certificates, box label, customer notices, catalog request labels, drop ship purchase orders and labels, shipping, invoices

## KEY BENEFITS OF ADDITIONAL WORKSTATIONS

Handle increased order volume while reducing inefficiencies and expenses.

- Helps remove bottlenecks and streamlines output of orders
- Process orders and shipping at the same time
- Streamline view process in batch screen
- Segmentation of orders with filters to predefine batches
- Ease of use – good for seasonal help
- Order status progression report – shows how long it takes to complete an order and gives the visibility ability to identify bottlenecks in the order process

## Learn More about Additional Workstations

*Find out how adding additional workstations can improve your efficiency, profitability and bottom line.*
